

Home is a powerful tool.

It's a place where we go to feel safe; a place to build memories and dreams. It's where children can learn, play, and grow.

At Habitat Southeast, we work with families and individuals who need a hand up to start changing their lives. The Homebuyer Program works in partnership with families and individuals to build a place they can call home, making a lasting impact in their lives and in their children's lives.

Safe, affordable homeownership is life-changing. Children growing up in a stable home are 116% more likely to graduate from college. Habitat homes are new, safe, and clean, reducing health problems associated with poor-quality housing such as asthma and allergies. And perhaps most importantly, when a family's highest monthly cost is manageable, financial stability and reduced financial stress can finally become a reality.

Habitat homebuyers, or "partner families", are empowered to make good financial choices to set themselves up for stability, self-sufficiency, and success. They are given the opportunity to see what they can do for themselves when they don't have constant housing worries hanging over their heads. As they work through the Homebuyer Program, they realize their own resiliency and learn lessons about who they truly are. Pride in their homeownership brings dignity and hope for the future.

If you're reading this, then you're probably ready to take that next step! Please review the guidelines on the following pages to learn about Habitat's Homebuyer Program and its requirements before applying. Best wishes!
